Dear Homeowner,

For most of us, our home is our most valuable asset. Many people are unsure if their roof has been damaged by extreme weather we have been experiencing recently. Damage caused by weather is not always visible to the untrained eye. A roof inspection by an expert is essential after a major weather event or on a bi-annual basis. The most common types of roof damage are caused by wind or hail.

Wind damage may be seen in the form of missing shingles. Often, wind can weaken your roof in ways you cannot see without a professional inspection. Wind can “lift” the shingles, breaking the seal and allowing rain to seep into the structure of the roof causing rot and damage over time.

Hail damage may be seen in the form of holes or cracks in the shingles. This may be observed by immediate leaks into your attic. It may also harm your roof by reducing the protective layer of gravel on asphalt shingles. This allows the sun to further deteriorate shingles and greatly reduces the life of your roof. Both large and even small hail may cause this type of destruction to your roof.

It is possible that your roof has been damaged by recent storms and you are unaware. We at Adam Construction will assist and ensure that all your property damage is restored and fully protects your home contents as it were designed to. Our Project Managers will support you throughout all stages of attaining a roof replacement paid for by your homeowner insurance policy.

Your friends,
The Adam Construction Team

Responsibilities of the Project Manager

If an appointment has been scheduled for a free roof inspection at your residence, you are assigned a Project Manager who will:

- ✓ Inspect your roof and photograph any damage
- ✓ Document the damage and gather all necessary information
- ✓ Answer any questions or concerns you may have
- ✓ Explain all available options
- ✓ Assist filing a roof-damage claim with your insurance company
- ✓ Meet insurance adjuster to ensure you receive a fair adjustment
- ✓ If necessary, meet with a secondary adjuster for re-inspect
- ✓ Negotiate with insurance company to maximize damage cover age
- ✓ Answer any questions you may have about Adam Construction
- ✓ Manage your individual requirements
- ✓ Follow project to completion and invoice insurance co for depreciation

Your DEDUCTIBLE

Deductible: [dih-duhk-tuh-buhl] – noun

The amount for which the insuree disliable on each loss, injury, etc., before an insurance company will make payment.

Due to the severe constant storms in Texas, many roofing contractors are looking for an unfair competitive edge. Some of them may state not charging you deductible in order to get your roofing project. **This is highly ILLEGAL and you should be concerned if companies make this statement. As of September 1st, 2019, Congress passed a bill to enforce penalizing for this act of Insurance Fraud.**

However, we understand that not all customers have the full amount to pay their deductible. At Adam Construction, we want all those individuals and families that need a new roof to receive it. We have a program via which you can be compensated by providing referrals. We can help with legally off setting your deductible. Please speak with your Project Manager about this.

Deductible Agreement

My Insurance Deductible is \$_____

I know it is my responsibility to pay, and here is how I am planning to deal with it:

() I may have some damaged items that I will choose to use as credit for the Actual Cash Value (ACV) toward my deductible instead of replacing them. We will discuss what we are doing after I receive a copy of my insurance paper work.

() I am willing to advertise Adam Construction to my neighborhood and friends. I will display sign in my front yard for at least three months from my build date. And I will allow my name, number and address to be used as a reference.

() I will pay my deductible by check or credit card either today or when materials are dropped.

() I would like a payment plan to pay over time. Please have the office contact me to set this up.

NOTE: We DO NOT honor verbal agreements

About Our Contract

Our contract is very simple and easy to understand. Your Project Manager can answer any questions that you may have about the contract and its terms.

As soon as you sign the contract, indicating that you will employ Adam Construction as your sole contractor to complete your claim, rest assured that your Project Manager will begin work immediately on your claim for a new roof. All damage will be documented, photographed, and a claim will be filed with your insurance company.

The burdening process of meeting with your insurance adjuster, negotiating with the insurance company and maximizing your property damage coverage will be alleviated.

All property damage will be repaired swiftly per the insurances cope of loss.

In Closing

We hope this booklet has assisted you in understanding the procedure of inspecting your roof for damage, the insurance claims process and the expertise that Adam Construction can provide making the entire process stress-free for you.

We are confident you will select Adam Construction for your home repair and construction needs. Please be aware that many unscrupulous contractors may try to take advantage of your misfortune. Do your home work before selecting a roofing contractor.

Make sure that the contractor you select does not demand any money until your roof is entirely replaced and schedules your roof within a week.

Thanks for considering Adam Construction. We look forward to making your home smile :)

3 STEPS TO INSURANCE CLAIM
